G560 LIGHTSYNC PC GAMING SPEAKERS

Recommended LIGHTSYNC Screen Sampler Settings for

World of Warcraft

Below is the recommended settings for G560 LIGHTSYNC PC Gaming Speakers using the Screen Sampler feature of Logitech G LIGHTSYNC™ technology. To learn more on how to use the Screen Sampler feature, see video and guide here.

Graphics Settings:

Resolution	1920 x 1080
UI Scale	1.0
Display Mode	Windowed (Fullscreen)

Configuration Notes:

The number next to the speaker lighting zone in parentheses () indicates the highlighted zone seen in the screenshot below.

Left Speaker:

Back (1)	Positioned away from the left side of the screen and shorter to avoid collision with the party & chat windows. This also concentrates sampling area to give more contrast around the horizon on screen.
Front (3)	Placed within the health bar to give warning of damage and low health.

Right Speaker:

Back (2)	Positioned away from the right side of the screen and shorter to avoid collision with quest tracking and event windows. This also concentrates sampling area to give more contrast around the horizon on screen.
Front (4)	Placed within the special resource bar (mana, etc.) to give warning of resource level.

Suggested sampling areas:
